Additional Questions

1. During the project, how many rounds of edits of the final report is the City anticipating incorporating? **The city has not determined a specific number of rounds, but at a minimum the consultant will likely present the draft report to the HPC and the final report to the HPC and City Council.**
2. Are there federal limits on hourly rates per personnel that the City is following or should bidders provide their standard company rates? **Standard company rates are fine.**
3. In order to reduce risk of COVID spread prompted by in-person proposal drop-off, will the city accommodate electronic submissions? **Yes electronic submission is preferred and encouraged, the email address is included in the previous addendum.**
4. For the proposal format: "REFERENCE PROJECT", can you please confirm whether the City is only seeking one single project description in this section or multiple project descriptions? **The respondent may include more than one project as a reference, but the entire proposal cannot exceed the page limit.**
