

PRESCHOOL

Preschool education plays an essential role in early childhood development. It prepares your child socially, emotionally and academically for kindergarten, and ensures that they are ready for a classroom environment. Long-term benefits include improved confidence, self-esteem, communication, and group interactions. It also introduces a classroom schedule and format, and strengthens their ability to follow instructions. Preschool kick starts their education and is a great foundation for a life of learning.

Sprouts and Pre-K Kids are state-licensed preschool programs that utilize developmentally-appropriate activities and materials that are centered around a purposeful-play atmosphere.

Preschool sessions last three hours, and are offered two, three or five days a week. Registration is on a first-come, first-served basis. Proof of age, shot records and physical are required. Participant information packets and the preschool policies and procedures manual are located at www.northglenn.org. Please fill them out completely (***the state requires that every line asking for addresses and phone numbers be filled out**), and return prior to your child's first day. Online registration is available for sessions paid in full. Payment plan options are available if you register for the complete semester. Please call 303.450.8800 or stop by the recreation center for more information.
